CWP 2024-2028 Local Plan Modification – WIOA (March 2026)

State Request: Minimally respond to the adopted WTDB 2025-2026 Strategic Plan and Scorecard with changes to items 1.1 and/or 1.2.

CWP Response: At this time, CWP will not be making modifications to the 2024-28 Local Plan. CWP's original plan continues to strongly align with the Oregon Workforce and Talent Development Board (WTDB) 2025-26 Strategic Plan on vision, equity, sector focus, and local board engagement.

CWP Goals, in 1.1, directly address inclusivity, the removal of workforce barriers, purposeful engagement with systems and agencies, the use of data to drive program development, system awareness, and the goal of prosperity through our Quality Jobs Initiative. Additional evidence of WTDB plan alignment is found throughout the CWP plan through our programs and our regular convening of system partners.

The CWP Board of Directors were informed of the decision not to amend the Local Plan, and this document will be shared with them via email, on our website, in addition to the April 2026 Board meeting. The public had the opportunity to provide comments on the Local Plan from February 11 through March 12, 2026. CWP received no communication regarding the Local Plan.
